12. (Internal Use Only - JEW) Attempted to arrange a meeting with Representative James Roosevelt to inquire about a rumor that the Small Business Committee under Wright Patman's chairmanship was preparing a further report relating to Government involvement in foundations. Mr. Roosevelt has not been in Washington but a few days since the Congress adjourned last year. However, he is keeping in touch with Committee matters through one of his assistants. Miss Audrey Smith advised me that all of the reports for the 86th Congress have been filed and that in all likelihood any future reports would require further hearings but in any event a proposed report would normally be brought to the attention of all members and they have received no information on any reports at this stage. She offered to be of help if I wished to check on this in the future.

14. (Confidential - JEW) Talked with George Murphy, Joint Committee on Atomic Energy staff, indicating the Director would like to set a time for a meeting. In discussing an appropriate date, Murphy indicated that the week of the inauguration would be difficult since many members probably would not be able to attend because of pressure of other matters. I indicated the Director's wish that it be set at a time when there would be a likelihood of full attendance. We then selected 22 January as a

The Director had thought that he could deal with one subject at a time taking questions on that subject alone and then turning to the next item. Mr. Murphy said he thought this was an excellent suggestion and he would discuss it with the Chairman. Mr. Murphy gave me the inevitable reminder of the 24-hour rule stating that he hoped with this much time we could get the statement up there even earlier. I said we would do the best we could.

16. (Unclassified - JCO) In response to a transmittal slip request, provided Senator John Sparkman's office with a copy of our professional brochure and a copy of the pamphlet entitled "The Central Intelligence Agency" for the Senator's use in responding to a constituent's request from [redacted]

Rodino, Jr. (D., N. J.) to permit naturalization of certain employees of Free Europe Committee, Inc. or Radio Liberty. Mr. Cline indicated that there had been several conversations with RFC people, particularly during the Subcommittee trip to Vienna, and that the bill had been prepared after their return from the European trip. Also received from Mr. Cline a copy of the White House proposed amendments to the Immigration Act, together with the accompanying sectional analysis.
